

# Get fast and error-free eContracting for your aftermarket F&I products

F&I Express® has the  
**largest** aftermarket  
provider network.

Your solution to a more efficient process for aftermarket F&I product sales - with happier customers and increased profits - is the F&I Express® eContracting platform.

## Time-Saver

Leave behind time-consuming 5-ply contracts and move to the F&I Express® streamlined platform. Get higher CSI scores when customers spend less time "in the box."

## No Outdated or Wrong Forms

Print out forms with one click. No more rewrites or running out of forms. Your contracts are on the right forms 100% of the time.

## Sign-On to Just One Website

Use a single sign-on to one website to eRate and eRegister products. Direct connectivity to more than 90 providers. Plus, integration with most DMS and many menu companies avoids redundant data entry.

## Error-Free Contracts

Ensure accuracy with no more rejected contracts due to wrong rates or missing information. Use eSignature for even faster contract submittals.
