# ID Experts Restore™

*Identity Theft Restoration Service*

In 2006, 8.4 million Americans fell victim to identity crimes — about 4% of the population.<sup>1</sup> Victims can spend hundreds of hours over the course of years trying to recover their identities and resolve theft-related problems.<sup>2</sup>

Public concern about identity theft is increasing; more than 33 million U.S. adults already use credit monitoring and other ID protection services, and the market is expected to grow at double-digit rates for the next several years.

ID Experts™ has developed the most comprehensive, fully managed identity theft restoration service for protecting individuals, families and businesses. Now you can offer this unique and personalized service to your clients, members or employees at a very low group cost, to build loyalty and generate revenue while providing peace of mind.

## WHY ID EXPERTS RESTORE?

ID Experts Restore™ is a fully managed identity theft restoration service for groups that provides the *complete* coverage that victims expect and need:

- ID Experts has a 100% success rate with victim identity resolution and the most experienced ICFE<sup>3</sup>-certified identity restoration experts in the business.
- Victims are assigned a personal, certified identity-restoration expert who takes over and acts on their behalf as opposed to assisted services that simply guide them through the stressful process.
- The restoration expert assesses damages and works with creditors, banks, lending institutions, government agencies, debt collection agencies and others to restore the victim's identity.
- Once identity restoration is complete, we keep the case on file for 36 months in case of further fraud or litigation.

## About ID Experts

*Founded in 2003, ID Experts™ has helped thousands of victims of identity theft, and today we protect millions of Americans from this growing problem. We work with some of America's largest corporations, government agencies and universities, offering ID theft protection services to their employees, members and customers, and helping organizations that have experienced a data breach to notify, protect and aid the people whose personal data has been lost or stolen.*

"My Recovery Expert was very professional and comforting. Once I explained what happened, she knew exactly what to do, then explained how she was going to work on my case and what I could expect. She helped reduce my stress so I could get on with my life. Her dedication was unbelievable. I recommend this service to anyone."

### *Identity Theft: A Crime with Long-term Consequences*

It takes about 14 months for a person to realize he or she is even a victim of identity theft. By then, the damage has been done; victims may have problems getting a loan, a job, an

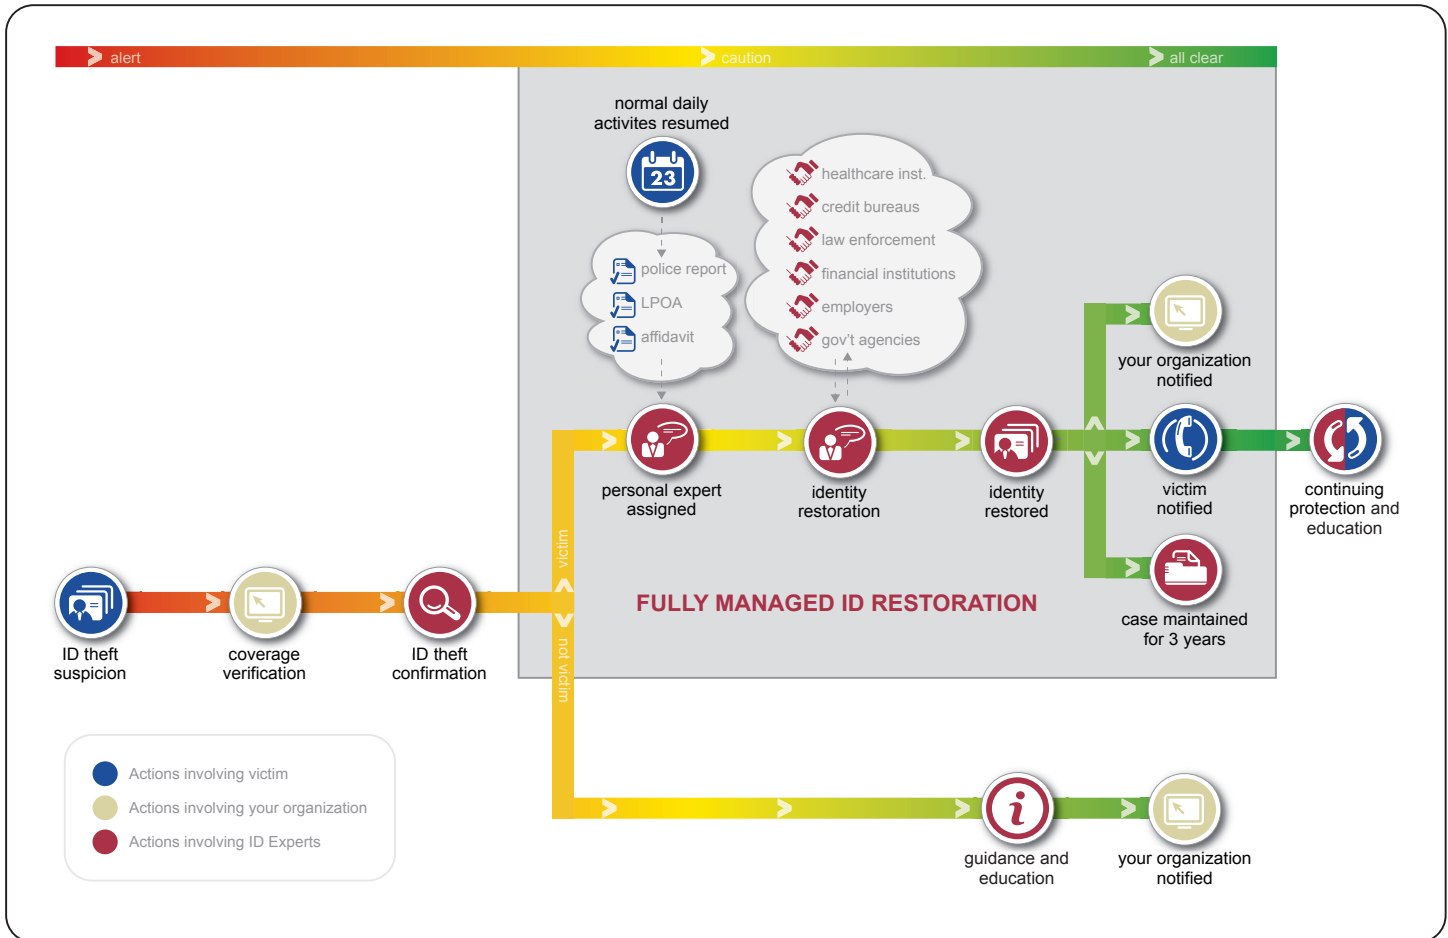

apartment, or even writing checks. In the worst case, they may even face criminal charges for crimes committed under their stolen identity.

Businesses also suffer the impact of this growing crime through customer distrust of cost-effective online services and lost employee productivity.
